

KRISH SONI

Full Stack Developer

Ahmedabad, India • krish1509soni@gmail.com • +91 63527 53899
github.com/Krish1509 • linkedin.com/in/krish-soni

PROFESSIONAL SUMMARY

Full Stack Developer with a completed internship, **3+ delivered client projects**, and a passion for building systems that genuinely solve real problems. Ranked **Top 7 out of 500+ teams** at Smart India Hackathon 2024. Known for taking full ownership — from the first line of code to production deployment — with a commitment to quality, clarity, and honest work.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java

Frontend: React.js, Next.js 14, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, Socket.io, WebSockets

Database: MongoDB, Mongoose ODM

Tools & Cloud: Git, GitHub, Clerk, Convex, Cloudflare, Vercel, JWT, Postman

PROFESSIONAL EXPERIENCE

Software Developer Intern · Yudin Solutions

2024

Stack: React.js | Node.js | Express.js | MongoDB | REST APIs | Git

- Contributed to live product features in a professional team — writing **clean, reviewed, production-ready code** from day one.
- Built and integrated **REST APIs** with Node.js & Express.js; connected React frontend to live backend with smooth state management.
- Proactively studied the codebase, asked precise questions, and delivered every task **on time without supervision**.

Full Stack Developer · Freelance — 3+ Client Projects

2023 – Present

Stack: Next.js | Node.js | Express.js | MongoDB | Convex | Clerk | Cloudflare

- Independently scoped, built, and shipped **3+ production applications** — owning all technical decisions, client communication, and delivery.
- Consistently delivered on time with **zero compromises on quality**, earning repeat client trust through transparency and reliable execution.

PROJECTS

Construction CRM with Real-Time Chat · Client Project

2025 – 2026

Stack: Next.js 14 | Convex | Clerk | Socket.io | MongoDB | Tailwind CSS | Cloudflare

- Architected a **full CRM** for a construction firm with **4 authority levels** — Super Admin, Admin, Supervisor, Worker — each with tailored dashboards and data access.
- Built **in-platform real-time chat** using Socket.io so teams communicate instantly without switching tools — eliminating coordination delays.
- Enforced **role-based access control** at both Next.js middleware and API level — no role could ever access data outside their authority.
- Deployed on **Cloudflare** with **Convex reactive backend** — all project updates, tasks, and worker activity sync live across all users.

EDUCATION

B.E. Computer Science Engineering · Gujarat Technological University (GTU)

2025 – 2027

Diploma in IT Engineering · GTU — RCTI

2021 – 2024

- CGPA: 8.56 / 10** — Strong foundation in programming, networking, and core engineering principles — completed after 10th standard.

ACHIEVEMENTS & RECOGNITION

- SIH 2024:** Top 7 out of 500+ teams nationwide • **Internship:** Yudin Solutions — professional full stack development environment.
- 3+ client projects delivered solo** — Full lifecycle ownership, zero missed deadlines, 100% client satisfaction.
- Self-taught:** MERN stack, Next.js, real-time systems & cloud — built entirely through self-discipline and consistent daily effort.
